BASEBALL PARK BADLY NEEDED

(Continued from Page 1.)

ball enthusiasts to cast about for some way out of the difficulty.

difficulty and it will not cost the from this direction, sports-loving public over \$3,000. Of course, this looks like a great big sum to ask for in the midst of these hard times, but when it is stated that the money subscribed will all be paid back the terrors cease to exist and there remains a good business proposition.

It will be remembered that, some time ago, the Bulletin published the story of the acquisition by the Boys' Brigade trustees of some five acres of land fust mauka of the Vineyard street camp built during the plague epidemic and bordering on the mauka side on the grounds of the Kauluwela of \$1,300 would be required. Building One-half of this property belongs to the Government and one-half to the Bishop Estate. The former has to the Bishop Estate. The former has been secured for five years and will be side, to something like \$1,700 more, granted for another five years at the thus bringing the grand total to \$3,000, latter has been leased for ten years.

The rent is a nominal one and was so made because of the fact that the land

chainwork of tare patches a broad ath- sufficient dirt in the five acres to perletic field, fenced in, upon which could be built a track for running and a baseball field in the central portion That is the proposition plainly stated

As to location, there is none better. The place is continually cooled by the breezes from Nuuanu and it is just far enough from the central portion of the city to guarantee a freedom from dust or dirt of any kind.

As to accessibility, it is alm faultless. A short drive up Emma street and across on Vineyard past Nuuanu, and a person in a carriage, on horseback or on a bicycle, is right at the proposed park. In the matter of transportation by cars, people could take the tramcars anywhere down street and ride up to the corner of Vineyard and Nuuanu. It is only a short walk from there. From the corner of Fort and Hotel streets to the

narrow street that leads from Liliba street toward the proposed baseball park, it is a matter of a six-minute ride on the electric cars. Three or four minutes would see a person at the entrance to the park. In order to get a complete right of way from Liliha street to the grounds it will be necessary to deal with some natives who There is a very easy and a most own land adjoining the proposed park satisfactory way of getting out of the but no difficulty would be met with

> Thus it will be seen that, so far as accessibility and the time taken to reach the park are concerned, no better situation could be secured.

Money is needed to transform this place into an athletic park where people could go and watch a baseball mit of leveling to the required height. game from a covered grandstand, thus having his enjoyment hampered by nothing like the beating down of the rays of the glaring sun or the unpleasant drizzle of a few drops of "liquid sunshine" down one's back.

To level off the five acres the sum the fence and grandstands, making the track and attending to all of the small-

was to be used for the purpose of givlng the poor young men of the city a
training in athletics, thereby bettering
their physical condition.
